

FIG. 1 is a block diagram of a production management apparatus 10 according to an embodiment of the present invention. The apparatus 10 includes a production management apparatus 60, a network 12, a first terminal 20, a second terminal 40, a production unit 50, and a customer 14. The production management apparatus 60 is connected to the network 12 and includes an order information storing unit 100, an image data storing unit 110, and a customer information storing unit 120. The first terminal 20 is connected to the network 12 and includes a display 22 and a touch panel 24. The second terminal 40 is connected to the network 12 and includes a display 42 and a touch panel 44. The production unit 50 is connected to the network 12 and includes a display 52 and a touch panel 54. The customer 14 is connected to the network 12 and includes a display 142 and a touch panel 144.
